

Quality Modular Pontoon Systems

Product Catalogue 2020
Customers Price List

The System

Our floating system is designed to be simple: the blocks are held together strongly and firmly by specially designed mounting screws. All pieces are lightweight and provide easy handling.

The cubes are suitable for any shoreline. They are adaptable and can be assembled to create any shape and size – no limit for the configuration options!

BULDOCK

FLOATING DOCKS

Jet Slider

The **Jet Slider** is made of efficient new-generation HDPE (high-density polyethylene).

www.buldock.com

BulDock Jet Slider is a unique dry dock system.

The **Jet Slider** is lightweight, but thanks to its' technology, it is resistant to impact, chemical products, UV rays and severe weather conditions.

Its' exceptional design prevents any disproportionate strain on the hull by distributing the watercraft's weight evenly.

The **Jet Slider** does not feature any moving parts that might be damaged or would require maintenance.
